

Rodríguez-López Lab

Group Meeting Schedule

Fall 2019

Group meetings will be on **Wednesday at 4:00 PM** in RAL 171 unless noted*

August 23 – Group Retreat – only current students

August 28 – Welcome meeting! Presenter: Yunxiong Zeng – SEI formation imaging on graphene

September 4 – no meeting

September 11 – Dipobrato Sarbapalli (2nd year) – Exploring the reactivity of the redoxmer/carbon interface

September 18 – no meeting

September 25 – Michael Counihan (4th year) – New methods and concepts for energy storage

September 26 – INCOMING GRADUATE STUDENT PRESENTATION (Thursday) – JRL presents new directions

October 2 – PANEL WITH PROSPECTIVE STUDENTS

October 9 – Sanja Pudar (2nd year) practice seminar

October 16 – Yana Zhao (2nd year) practice seminar

October 23 – Kendrick Hatfield (3rd year) practice seminar

October 30 – no meeting

November 6 – Matthew Kromer (5th year) – Electrochemical investigation of oxygen heterogeneous catalysis

November 13 – Zachary Gossage (5th year) – SECM imaging of lithium-ion interfaces using novel probes

November 20 – Andrew Danis (postdoc) – SECM-Raman studies of redox flow battery interfaces

November 27 – Open (Fall break, only if needed)

December 4 – Undergrads

December 11 – Yana (2nd year) – SECM combinatorial screening of hydrogen peroxide catalysts

December 18 – Sanja (2nd year) – Electrochemistry of new molecular motifs for energy storage
